COLUMBIA COLLEGE CALGARY

DENTAL PATIENT CARE CLINIC

Successfully Training Dental Assistants since 1991

At our dental clinic, we prioritize your oral health and well-being. Our highly qualified dentist will evaluate your dental needs and prescribe the appropriate treatment plan for you, which may include x-rays, polishing, fluoride, dental sealants, and/or teeth desensitization. They will also provide a referral letter outlining any dental concerns. Our students, under the direct supervision of our experienced dental professionals, will perform the prescribed services to ensure that you receive the highest quality of care.
