

Columbia College
Approaches to Learning (EAPR151)
Lecture 1
Course Outline

Semester Dates: November 18, 2019 to December 21, 2019

Please note that when a holiday falls during the week, your class will be rescheduled for the Friday of that week. Students are required to make arrangements to be present at the rescheduled class.

Facilitator: Angela Parsons

Email: angela.parsons@columbia.ca

Class Time: 5:30 PM – 9:30 PM (Thursday)
1:00 PM to 5:00 PM (Saturday)

Room: Building 805 Room 113

Saturdays Building 4 Room 157

Credit: 3

Prerequisite: None

Note: It is the student's responsibility to be familiar with the information contained in the Course Outline and to clarify any areas of concern with the facilitator.

Course Description:

This course is designed to help students gain an understanding of the learning process. The course will focus on helping students to understand how children learn. Emphasis will be placed upon learning modalities and styles. There will also be an examination of theories of child development, behavioural, cognitive, and social approaches, teaching and learning, intelligence, socio-cultural diversity, exceptionalities, and motivating students to learn. Prerequisite: None

Learning Outcomes:

As a result of active participation in these sessions, a student can expect to:

- Identify and discuss different ways that students learn.
- Develop an understanding of how individuals develop cognitively, physically, emotionally, and socially and how these aspects work together to impact behavior and learning.
- Identify how educators can accommodate for the diversity of students in an educational setting.
- Describe how educational research in the areas of behavioral, cognitive, and constructivist perspectives of learning and motivation can enhance educational practice.
- Understand and evaluate various learner centered approaches to planning and instruction.
- Define student motivation and identify factors that influence it.
- Begin to develop an understanding of assessment instruments and their interpretations.
- Identify the attitudes and skills of effective instruction.
- Understand, compare, and evaluate various cooperative learning approaches.
- Identify the stages of cognitive development and adjust approaches to learning accordingly.
- Identify strategies to improve learner's social skills and prosocial behaviours.
- Describe, analyze, and compare learning and thinking styles.
- Understand and explain the concepts and theories of intelligence.

Course Format:

This course uses a variety of teaching/learning methods including discussion, personal reflection, experiential exercises, student presentations, role-plays, group activities and especially case studies. Our faculty aims to create a learning environment where the learner is actively engaged in inquiry, critical thinking and problem solving. The classroom provides you with a place where you can learn with and from others in a cooperative and collaborative manner.

You are expected to take a very active part in class discussions and take responsibility for your own learning. Be a positive and co-operative team member. Columbia College uses a facilitation model of instruction where the facilitator's role is to facilitate your learning. The expectation is that you will come to class prepared with pre-class homework completed. Your facilitator will engage you in activities that are based on your completed homework and readings. Your enthusiastic and positive approach in the classroom will create an atmosphere that will help every student develop the knowledge, skills and attitudes that are needed for success.

How you conduct yourself in our classes will, to a large extent, mirror your conduct in society and your future work site. For example, if you have a tendency to ask questions, challenge the ideas of others in a respectful manner, draw out the best from your colleagues, and encourage both group development and task accomplishment in this class, it is likely you will do the same at work. A high level of student involvement and developing professionalism is expected in the classroom as you work towards your goal.

Required Textbooks and Equipment:

Santrock, J.W. (2018). *Educational Psychology: Theory and Application to Fitness and Performance, Sixth Canadian Edition*. New York, NY: McGraw-Hill Education.

Making A Difference: Meeting diverse learning needs with differentiated instruction. Government of Alberta Education (2010).

Also, use other academic sources like Google Scholar.

Further Recommended Readings and Resources:

To be assigned by facilitator

Homework Assignment Due for the First Class:

1. Read this course outline and be prepared to discuss in class.
2. Read Chapter 1 (Educational Psychology) and Chapter 1 (Making A Difference).
3. As a result of your reading assignment, write down at least three (3) questions that you would find beneficial to discuss in class.
4. Prepare for a test on the assigned readings.

Evaluation - Assessment of Student Performance:

The final grade in the course will be based on the following elements. Wherever possible facilitators will use rubrics to assess your performance and offer feedback.

Title of Assignment/Examination	Due Date	Weight
Daily Tests	Daily, Classes 1 through 10	25%
Assignment 1	Class 4	20%
Assignment 2 – Case Study	Class 7	25%
Final Case Study Project	Class 10	30%

Please note that all homework and assignments are due at the beginning of each class. You must submit both assignments, and write the final exam in order to pass the course.

Grading:

Grades for each component will be added together at the end of the semester. The final total will be translated to the Columbia College's 4.0 grading scale as follows:

Marking and Grading Conversion:

Description	Letter Grade	Grade Points	Percentage Scale	
Excellent	A+	4.0	100	95
	A	4.0	94	90
	A-	3.7	89	85
Good	B+	3.3	84	80
	B	3.0	79	75
	B-	2.7	74	70
Satisfactory	C+	2.3	69	65
	C	2.0	64	60
	C-	1.7	59	55
Poor	D	1.0	54	50
Failure	F	0.0	49	0

Please note that to pass this course you must earn at least a “D” (a minimal pass).

Submission and Completion of Assignments:

You are expected to submit assignments by the due date. Any late assignments may be assessed a marking penalty of 5% per working day. If you are unable to submit an assignment on the due date, you must request an extension **before** the due date by filling out an *Application for Assignment Extension form (SSPP-F012)* that is to be submitted to the Department Chair for approval. This form is available on Columbia's website, Bldg. 802 – Main Office and from Department Chairs.

Attendance Requirements:

Columbia College believes that students are committed to their program and learning experiences. However, it is understood that there are times when students may be absent. Any absences can be viewed as a potentially serious disruption of the learning process and necessary achievement of the learning objectives. Being late is also considered unacceptable as it interferes with the learning opportunities of others. Unavoidable absences or lateness must be reported to the course facilitator in advance. Please refer to Columbia College's *Attendance Policy and Regulations (ADM-P151)* for detailed information on Attendance Requirements.

Academic Integrity:

Academic dishonesty is a serious offence and can result in suspension or expulsion from Columbia College.

There is no tolerance for academic dishonesty and any student caught plagiarizing is subject to serious sanctions as outlined in the *Student Code of Conduct Policy (ADM-P229)*. Students are encouraged to familiarize themselves with this policy and avoid any behavior that could possibly be seen as cheating, plagiarizing, misrepresenting, or putting into question the integrity of one's academic work.

Student Conduct:

It is the responsibility of each student to uphold the expectations and responsibilities outlined in the *Student Code of Conduct Policy (ADM-P229)* and any additional requirements established by your program.

Generally, each student will:

- be respectful and courteous toward others;
- demonstrate appropriate and supportive communication skills, and coach, assist, advise and otherwise support other students in their studies;
- manage any personal stress and conflict in a positive and resourceful manner, and assist others to do the same;
- be dressed in a manner appropriate for their workplace or learning environment, as established by the program;
- conduct themselves in a professional manner with regard to their communication with others and their behavior in class;
- conduct themselves with academic integrity in all of their learning activities, tests, exams, and assignments
- Keep up with day-to-day classroom and course expectations.

Important Dates:

Description	Date
Last to add/drop courses	5 school operating days from the start of the semester OR before the third scheduled class, whichever is greater
Last day to withdraw without academic penalty	50% or less of the semester has been completed

Appeals:

Please refer to the *Student Appeal Policy (ADM-P177)*.

Students with Temporary or Permanent Disabilities or Medical Conditions:

Students with temporary or permanent disabilities or Medical Conditions may apply for accommodations. To be considered for an accommodation, a student must register with Columbia College's Accessibility Services by making an appointment with an Accessibility Services Advisor – Main Office – Bldg. 802 or emailing accessibilityservices@columbia.ab.ca. The Department Chair or facilitator is not able to provide you with any accommodations without you taking this step. Please refer to Columbia College's website to review *the Student Accommodation Policy (ADM-P188) and Student Guide to Accessibility Services (SSCM-001)*.

Student Support:

Students should be aware that Life Coaching, Career and Accessibility Services, and Student Support Services (i.e. tutoring, academic strategists, etc.) are provided by Columbia College. Inquire how to request these services at the Main Office in building 802. It is the student's responsibility to discuss their specific learning needs with the appropriate service provider.

Class Schedule/Overview:

Please note that this schedule is subject to change. Any changes or cancellations will be emailed to you. It is your responsibility to check the email address you have given to the school on a daily basis for any messages from the Department Chair/designate, facilitator or College Administration. It is the student's responsibility to be familiar with the information contained in the Course Outline and to clarify any areas of concern with the facilitator.

Appendix 1 Assignment Outlines

Daily Tests

Due Date: Each class from classes 1 through 10.

Weight: 25%

Students will be expected to read the assigned chapters in the text and other assigned readings and be prepared to write a graded test based on these reading assignments.

Assignment 1: Reflect on an Educational Theory

Due Date: Class 4

Weight: 20%

Students will be required to create a visually appealing, two-page handout summarizing the theory of one of the educational theorists below:

- Jean Piaget
- Lev Vygotsky
- Howard Gardner
- B.F. Skinner
- Albert Bandura

In addition to the handout, students will also be complete a reflection based on the following ideas:

- a) Compare and contrast the ideas of two different theorists and explain why you picked this particular theory
 - b) Detail the importance of learning about these educational theories
 - c) Reflect on your experience of this assignment
- **Format:** This assignment should be typed and double-spaced. Do not include title pages. Include your name at the top of each page. A minimum of one inch margins on each side. 12 point Times New Roman font is preferred. The reflection should be a minimum length of 500 words but is not to exceed 750 words.

Students will be evaluated according to the attached rubric: Reflect on an Educational Theory Rubric

Assignment 2: Analysis of a Case Study

Due Date: Class 7

Weight: 25%

Students will read over the following case study and will then be required to complete a case study analysis using the following questions as a guide:

- Identify the main issue/problem/key ideas
- Provide an analysis and interpretation of the issue
- Draw a clear conclusion and identify implications
- Demonstrate problem solving skills by showing what your responsibility as an EA could be in this situation
- Show a strong working knowledge and understanding of Educational Psychology.

Students will be assessed using the attached Analysis of a Case Study Rubric and are required to support their analysis with evidence from both of the class texts.

Writing Assignment Expectations:

- **Objective:** The objective of this writing assignment is to critically apply concepts, ideas, and procedures to facilitate higher level learning. The assignments are designed so students can demonstrate the depth of knowledge related to the course content.
- **Focus:** This assignment is designed to apply knowledge from the chapters and class discussions.

- **Format:** This assignment should be typed and double-spaced. Do not include title pages. Include your name at the top of each page. A minimum of one inch margins on each side. 12 point Times New Roman font is preferred. Each assignment should have a minimum length of 500 words but is not to exceed 750 words.

Case Study:

Jack is 7 years old and in mainstream public school.

He has difficulties understanding language, particularly:

- Long and complex sentences
- Certain words, particularly relating to the language of time and position words such as in front, behind, next to
- Difficulty understanding the meaning of new words and making links between words, for example knowing that 'short' and 'tall' are opposites
- Poor listening skills and a tendency to become distracted

He has difficulties using language and so:

- He struggles to find the right words to say what he wants
- He uses shorter sentences than other children of his age, and cannot always make himself understood
- He enjoys socializing at playtime but does not always understand the rules of games therefore does not always join in in the right way

When Jack is in the classroom, he sits near to the front of the class, facing the teacher. This helps him to focus his attention on the teacher, and it helps her to see when he does not understand the task. The teacher uses frequent gesture when teaching to help keep Jack focused and to give him extra clues about what he is learning. If she wants him to respond to a question or instruction, the teacher always says his name first so that he knows to listen.

Jack is able to understand the routines of the day by following the visual timetable that is up in the classroom. The visual timetable is a timetable of pictures and words that clearly shows the events of the day in the order that they will happen. Each part can be moved so that any changes in the day can be pointed out.

Jack knows what the targets for learning are as they are clearly shown on the whiteboard. What can you do as an EA to support Jack within and outside of the classroom?

Final Project Case Study
Due Date: Class 10 Weight: 30%

Students will **choose** one of the following two case studies and will then be required to complete a case study analysis using the following as a guide:

1. Identify the main issue/problem/key ideas
2. Provide an analysis and interpretation of the issue giving possible suggestions of strategies and tools that could be used to support the student
3. Demonstrate problem solving skills by showing what your responsibility as an EA could be in this situation
4. Draw a clear conclusion and identify implications
5. **Present your work orally to the class. You can use props and other materials to enrich your presentation. Be creative. You will have between 2 to 5 minutes for your oral presentation.**

Show a strong working knowledge and understanding of Educational Psychology. Students will be assessed using the attached **Analysis of a Case Study Rubric** and are required to support their analysis with evidence from both of the class texts.

Writing Assignment Expectations:

Objective: The objective of this writing assignment is to critically apply concepts, ideas, and procedures to facilitate higher-level learning. The assignments are designed so students can demonstrate the depth of knowledge related to the course content.

Focus: This assignment is designed to apply knowledge from the chapters and class discussions.

Format: This assignment should be typed and double-spaced. Do not include title pages. Include your name at the top of each page. A minimum of one-inch margins on each side. 12 point Times New Roman font is preferred. Each assignment should have a minimum length of 500 words but is not to exceed 700 words.

Case Study 1 – Tommy (Elementary/Middle School)

Background Information Tommy is a 10-year-old boy who enjoys baseball, swimming, and baking. He does not like art activities or large crowds.

Tommy has a good sense of humor but he can be irritable. He is fearful around new people and may become quiet and more reserved in those situations. His parents and teachers talk him through exposure to new people. Tommy is highly verbal and speaks in sentences. Tommy is above grade level in reading. He enjoys reading, and his favorite book is the Percy Jackson Lightning Thief.

According to Tommy, he dislikes writing. Most of his writing is simple sentences with a great deal of grammatical errors and little detail. He also struggles with math; in which he is approximately 2 grade levels below. He has recently learned how to pitch left handed. Tommy has a medical diagnosis of childhood-onset bipolar disorder and an educational classification of severe emotional and behavioral disorder. He takes medication for bipolar disorder on a daily basis. He is currently on a new medication. Tommy has a new baby brother who is 5 months old.

Target Behavior:

Tommy has been increasingly disruptive the past few months. He has verbal outbursts and pushes classroom materials onto the floor after being given an academic task during quiet work time. His verbal outbursts include yelling that he is not doing the assignment, telling a student to shut up, using profanity, and calling student's names. His teachers do feel that they spend about an hour per day dealing with the behavior, and they usually respond to Tommy's behavior by scolding him or by initiating an office referral.

Case Study 2: Paulo Elementary School:

Paulo is a 10 years old boy diagnosed with Autism Spectrum Disorder (ASD). He had Pedagogy and Speech Therapy home care during the period he was not at school. In addition, he performed swimming and music lessons. He expressed himself and understood only short phrases, and he often needed to use gestures.

Sometimes he appeared not to hear or understand simple instructions or requests. This child had been at the same Elementary School since kindergarten.

The classes were taught by his teacher Julia, who had a classroom assistant who accompanied the teaching directed to students with disabilities, and also accompanied the students to the restroom and during school break.

Paulo attended the Specialized Educational Service (SES) offered by the school, once a week in the period contrary to the common class.

Paulo has low academic skills, although he is a good reader. He can cuddle up with a book and spend hours reading. He also enjoys electronics and music. He is able to solve a few Math problems and other activities when using a computer or an I-pad. His parents are very supportive and have tried everything they can to help Paulo to thrive in school. Paulo also has a little brother and an older sister that seem to be normal.

Target Behavior:

Paulo gets frustrated when he cannot understand something or when other people cannot understand him. He will just shut down and be quiet. Sometimes he would cry and make noises with his mouth. His teacher and aid feel helpless sometimes, as they do not know what to do to help Paulo. They know that he could succeed in school if he did not get so frustrated every time something does not go his way.
