Course Description:

In this course the student will gain an understanding of the foundations of language acquisition and literacy development. A key focus will be on how to improve language and literacy in speech, reading, and writing and what strategies will help students of all abilities to succeed in these areas. There will also be a discussion on modifications for literacy learning due to various exceptionalities and individual learner needs in an inclusive environment.

Learning Outcomes:

As a result of active participation in these sessions, a student can expect to:

- Identify and discuss the main perspectives on children's language acquisition.
- Develop an understanding of how children acquire and develop language.
- Identify how educators can accommodate for the diversity of learners needs and abilities.
- Describe how educational research in the area of literacy can enhance educational practice.
- Understand, compare, and evaluate perspectives on language acquisition.
- Begin to develop an understanding of how to facilitate oral language learning, reading, and writing.
- Identify emergent literacy strategies.
- Develop various methods to facilitate individual and small group literacy strategies.
- Identify the stages of children's language development accordingly.
- Identify strategies to improve learner's language acquisition and literacy skills.
- Develop an understanding of how to support family literacy initiatives.

Course Format:

This course uses a variety of teaching/learning methods including discussion, personal reflection, experiential exercises, student presentations, role-plays, group activities and especially case studies. Our faculty aims to create a learning environment where the learner is actively engaged in inquiry, critical thinking and problem solving. The classroom provides you with a place where you can learn with and from others in a cooperative and collaborative manner.

You are expected to take a very active part in class discussions and take responsibility for your own learning. Be a positive and co-operative team member. Columbia College uses a facilitation model of instruction where the facilitator's role is to facilitate your learning. The expectation is that you will come to class prepared with pre-class homework completed. Your facilitator will engage you in activities that are based on your completed homework and readings. Your enthusiastic and positive approach in the classroom will create an atmosphere that will help every student develop the knowledge, skills and attitudes that are needed for success.

How you conduct yourself in our classes will, to a large extent, mirror your conduct in society and your future work site. For example, if you have a tendency to ask questions, challenge the ideas of others in a respectful manner, draw out the best from your colleagues, and encourage both group development and task accomplishment in this class, it is likely you will do the same at work. A high level of student involvement and developing professionalism is expected in the classroom as you work towards your goal.

Assignment Outlines

Please note: Students must complete all assignments, tests, and final projects in order to pass this course.

Daily Tests Due Date: Each class from classes 1 through 10.

Weight: 25%

Students will be expected to read the assigned chapters in the text and other assigned readings and be prepared to write a graded quiz based on these reading assignments.

Assignment 1: Literacy Development

Due Date: Class 5

Weight: 20%

Students are required to focus on early emergent or emergent readers. They should select age appropriate literature that may be used for shared reading (big books), reading aloud and independent reading. Once they have chosen two books, students must provide a rationale for selecting those particular books.

Literacy Development (Choose **one**):

- a. Create a classroom alphabet connected to your book. Make it meaningful for the student.
- b. Design an interactive age appropriate, attractive and clearly written literacy chart from a song or a book extension with patterns that highlights phonics or spelling for instruction.
- c. Design an age appropriate math game (that supports literacy development) from a song or book extension.
- d. Create an age appropriate bingo game related to your topic that supports literacy development

This assignment will be assessed using the Literacy Development Rubric.

Assignment 2: Critical Writing Response- Language, Literacy and Differences in Learning

Due Date: Class 8

Weight: 25%

This assignment is intended to help you think about and apply what you have learned about language and literacy.

Students should consider the following questions during their analysis:

1. How do differences such as exceptionalities and learning styles in a child's development affect how they acquire language? Discuss various exceptionalities.
2. What is the long term effect of these differences without a literacy rich environment?
3. How can intervention strategies and a language rich classroom environment affect these differences? Give examples of intervention strategies. Describe what a language rich classroom environment would look like.
4. Describe the literacy development of a child who is learning more than one language at a time.
5. In conclusion, give your opinion about the connection between school and family in achieving literacy learning outcomes

Writing Assignment Expectations:

- **Objective:** The objective of this writing assignment is to critically apply concepts, ideas, and procedures to facilitate higher level learning. The assignments are designed so students can demonstrate the depth of knowledge related to the course content.
- **Focus:** This assignment is designed to apply knowledge from the chapters and class discussions.
- **Format:** This assignment should be typed and double-spaced. Do not include title pages. Include your name at the top of each page. A minimum of one-inch margins on each side. 12-point Times New Roman font is preferred. Each assignment should have a minimum length of 750 words but is not to exceed 1000 words. This assignment will be assessed using the Critical Writing Response Rubric.

How to avoid plagiarism?

The simplest way to avoid plagiarism is to reference any source properly (using both in-text, parenthetical citations in the body of your assignment and a “References” page at the end. While it is commonplace to build upon the knowledge of others, it is necessary to clearly state the sources and foundations of that knowledge.

Final Project

Due Date: Class 10 Presentations: Classes 9 & 10

Weight: 30%

Students will be required to present a final project covering the content of classroom learning and assigned text and other readings

Note: Students must complete and receive a minimum of 50% on the final project to be awarded a passing grade for the course.

Final project to be discussed in Class #2
