

# Language Instruction for Newcomers to Canada (LINC)

## Learn English to Study and Find Employment in Canada

Columbia College's LINC (Language Instruction for Newcomers to Canada) program provides high-quality language instruction to newcomers in Canada. In our program, you will learn English skills and get to know about life in Canada. We will teach you about Canadian culture and how to communicate at home, work, and with different organizations like schools, hospitals, and banks. These classes are also for Permanent Residents who want to learn English to become Canadian citizens.

Upon completion of the LINC program, you may continue your education in the English as an Additional Language Program at Columbia College. We also offer professional programs for students who have achieved CLB 7 & 8, which can help you further develop your career.

Quality education employers value.
